**Forecast for Saturday 03 Jul 2021**

**Weather:** Cloudy start to Saturday with showers soon moving across the park, merging together at times to form longer spells of potentially heavy rain. The showers will become more scattered during the second half of the morning and afternoon, with some potentially heavy and thundery, before easing off into the evening and overnight.

**Chance of cloud free mountain/hill tops above 800m:** 80% in the early hours, dropping to 40% from 06:00 onward.

**Visibility:** Cloud bases largely above the summits to begin the day, but increasing amounts dropping to 300-400m associated with the showers. Very poor visibility in the showers themselves. Cloud remaining around 300m through the afternoon, particularly for western slopes and summits.

**Level above which ground is expected to be frozen/snow is expected to settle.*

**Meteorologist's View**

Showers throughout the day will make paths and slopes slippery, thus extra care should be taken when out walking and waterproofs should be worn.

**Forecast for Sunday 04 Jul 2021**

**Weather:** Remaining cloudy through Sunday morning. Showers developing over the course of the day, with the potential for these to be heavy and thundery. A few brighter spells may develop in between the showers in the afternoon, before the showers ease off again into the evening and night.

**Maximum wind:** Winds on the summits southerly 15 mph, occasionally gusting 25 mph.

**Chance of cloud free mountain/hill tops above 800m:** 40% through the morning, rising to 80% in the afternoon.

**Visibility:** Scattered cloud bases of 300-400m during the morning, bringing poor visibility. Cloud bases lifting to predominantly above the summits through the afternoon, but visibility temporarily still poor in any showers that pass over.

**Temperature:** **Valleys:** Plus 9 Celsius.
**At 800m:** Plus 13 Celsius, rising to plus 18 Celsius.
**Freezing level:** Above the summits all day.
